2 July 1985

MEMORANDUM FOR: Inspector General

THROUGH: Deputy Director for Science and Technology

25X1
FROM: [REDACTED]
Director, Foreign Broadcast Information Service

SUBJECT: Draft Report on Television in CIA

REFERENCE: A. Office of the Inspector General Survey of
Television in CIA (June 1985)

B. Memo from IG to DDS&T dtd 13 Jun 85

1. We have reviewed the referenced Inspector General's Survey of Television in the CIA (draft) and believe that, in view of its focus on television production to the virtual exclusion of collection and processing activities, the survey should be retitled to reflect that emphasis. However, we also believe that to give a more rounded view of Agency television activities, major FBIS ongoing projects and plans should be footnoted or mentioned in the report. Current FBIS projects include foreign TV collection in response to Community requirements; initial processing to include standards conversion, translation, and subtitles; and near real-time delivery as a raw intelligence product to CIA and other U.S. Government consumers.

2. Our comments below enlarge upon, and in some case update, statistics noted in the draft report:
